New York Stock Market

New York, January 2.—The beginning of the new year in the stock market brought considerable strength. Bullish operations were conducted with more vim than has been witnessed for some time. Prices were advanced in railway quarter of the list. A significant feature of the day was the increase in the volume of outside business. Buying through commission houses was more active, and the day's transactions rose all along the line.

Several factors operated in favor of higher prices. One of the most important wag the abnermal case of money rates. A Word Non-Residents

The larger part of our deposits are, of course, local; but many of the company's best accounts are from firms and individuals away from Richmond.

They find, and you will find, it very satisfactory to keep an account in Richmond which can be checked on at pleasure, and upon which interest is allowed.

We have several good accounts in a sister State, and the parties occasionally wish transfers made to New York, which we are glad to do.
